

Tenney Chiropractic - Augusta, Maine - Maine Chiropractors -

Welcome to our website. At Tenney Chiropractic, we are committed to helping you and your family achieve your health goals for today, tomorrow, and throughout your lifetime.

Tenney Chiropractic is located at 503 Riverside Drive in Augusta, Maine. We took over this facility from Dr. Joe Trozzi at his well-earned retirement. Dr. Tenney had worked for some period of time with Dr. Trozzi, and is completely familiar with his treatment methods.

We are an evidence-based practice. That means we utilize the latest research findings to ensure you get the best possible outcome from your treatment. We are trained in a variety of techniques to address your unique health care needs.

Our treatment goals are to help patients feel and function better, by helping to restore unrestricted, pain-free movement.

We understand that most people who come to chiropractors are suffering from acute, chronic, or intermittent pain, often low back pain, neck, pain in the joints of the arms and legs, or headaches. Once under our care, most patients can expect to experience relief within just a few visits. If after careful examination and diagnosis, we determine that your case is not amenable to chiropractic care, rest assured we will refer you to the most appropriate health care specialist to address your condition.

Your health and well being is our first priority.

Please take a moment to enjoy our website. Thank you for visiting, and have a healthy day.
